LOTTERY CASES

...ents Before the United States Supreme Court.

THE MAILS BE CLOSED?

...g that the Liberty of the Press Violated—Assistant-Attorney-General Maury Replies for the Government.

...NGTON, Nov. 16.—Argument in the ...volving the constitutionality of the ...tery law began in the supreme court ...United States this afternoon and will ...cluded to-morrow. The cases are ...John L. Raper of the Mobile Reg... ...d George W. Dupree of the New Or... ...tates, who were arrested on the charge ...delting in the mails newspapers con... ...lottery advertisements, and Dupree ...rged also with depositing in the mails ...containing the advertisement. The ...ine to the supreme court on applica... ...r habeas corpus and certiorari.

...Taylor, attorney for Raper, opened ...on behalf of the petitioner. In the ...time at his disposal he reviewed the ...of the liberty of the press leading up ...in contention, that the anti-lottery ...interfering with the freedom of speech ...newspapers and other publications ...federal court was unconstitutional. ...been recognized, he said, that the very ...e of the freedom of the press which the ...endment to the constitution guaran... ...the right of circulation, not along the ...of commerce over which congress ...possibly exercise any control in ...but along the great highway of ...only highway which the govern... ...tains and controls. The first ...together with the eleven ...ow it, had been declared ...preme court to contain limita... ...upon powers which the ...overnment never possessed, but ...rs actually vested in it by the ...n in its original form. The only ...vested whose exercise could pe... ...ge the freedom of the press is the ...egulate mails, to that power only ...freedom of the press for the first ...apply. If that be true, be ...n the very essence of the freedom ...first amendment guarantees, is ...able right of all newspapers to ...through the mails, subject only to ...ded restrictions as that amendment ...In view of this right to circulate ...mails it was idle to contend that ...d on the same plane with merchan... ...h was entitled to no protection. ...ever, he added, which could dictate ...vertisements a newspaper should ...could dictate what editorials it ...contain. The distinction at ...by the government had no basis ...reason or authority. Mr. Taylor ...sed by Assistant attorney-general ...for the government. There was ...o limitation whatever so far as the ...the power are concerned on the will ...ess and if no limitation on the will ...ess there was no possible ground on ...could be argued that the laws of ...creating a postal service or not ...y for carrying out the power to estab... ...offices and postroads. The whole ...was one of legislative discretion, ...hich the courts could not inter... ...pt to prevent perversion and ...More than a century of acquies... ...of the people of the United ...ld in a construction of the constitu... ...ch provided on the opposite idea ...discretion of congress is absolute ...he power to establish a postal system, ...ing on the courts, as the supreme ...d expressly ruled several times. No ...ld deny that congress had the power ...what shall be mail matter and what ...t. Congress decided it advisable to ...a new request from the mails on any ...it might do so. Might it not include ...indise altogether? And if congress ...exclude newspapers absolutely, might ...admit them on any terms it deemed ...able. Mr. Maury went on to contend ...he general welfare sentence of the ...ble to the constitution allowed the ...ment to do what it seem fit to prevent ...from being made an agency for the ...otion of a demoralizing practice, and ...argued that the right to exercise po... ...power over the mails was not an abridg... ...of right. Concerning the freedom of ...press, Mr. Maury went on to contend ...the right to exclude obscene and other ...oral matter from the mails had never ...denied and could apply to the lottery ...Mr. James C. Carter, of New York, ...ed for Dupree, followed Mr. Maury. ...contended that congress had not, in vir... ...of its authority to make laws, now ...proper in order to carry into execu... ...powers, expressly granted to it, ...right to pass a law manifestly ...d avowedly for the sole purpose of ...prohibiting a business within a state, ...ich that state had a right to authorize and ...which congress had no control, and also ...a law prohibiting the circulation of cer... ...written and printed matter open to no ...ction save that it related to a certain ...ness not criminal in itself and permitted ...the laws of some of the states, by the or... ...ary and usual means of circulation pro... ...d by law for the public generally; ...d the freedom of circulation and by ...fluence, the freedom of the press. ...Carter had not finished his argument ...he hour for adjournment arrived.

...e Pueblo Postoffice Controversy.

...xas, Nov. 16.—A Washington special ...Times says: The Pueblo public ...g site controversy occupied the time ...high officials of the treasury depart... ...for several hours to-day. C. C. Cle... ...a Washington attorney, first secured ...or and made a lengthy argument in ...of the Barter property at the corner of ...And Main streets. Ex-governor Fore... ...followed in favor of the Gordon proper... ...Practically the same ground was cov... ...in today's argument as in the hearings ...the site commission in Pueblo. Lit... ...was new or interesting was brought ...either of the attorneys. Secretary ...and Assistant secretary Grounse lis... ...to the arguments. ...B. & O. Stockholders Meet.

...MORE, Md., Nov. 16.—The reports ...d to the annual meeting of stock... ...of the B. & O. railroad company to ...the total earnings of the year 10 ...,331; total expenses $17,078,771. ...parison of the fiscal year of 1891 ...shows the following: Increase in ...nings, $718,200 or 48 per cent.; in... ...operating expenses, $111,383, or 66 ...; increase in net earnings, $6,935, ...cent.; decrease in earnings from ...178,636, or 1.05 per cent.; increase ...s from passengers, $853,230 or 6.85 ...increase in tons moved, 782,498, ...cent.; increase in passengers car... ...70, or 1.62 per cent. The Philadel... ...ion shows an increase in net earn... ...23.39 per cent. A large ma... ...the shares were represented. ...al reports of the president and ...manager were read. The stock-holders unanimously voted that a minute be made of their appreciation of the energetic management of the affairs of the company by President Mayer. The only change made in the board of directors was the election of Charles J. M. Gwynne, to take the place Dr. D. H. Miller. Dr. Gwynne is chairman of the active committee of the board of trustees of the Johns Hopkins university. The contracts made with the directors with the Chicago, Rock Island and Pacific Railroad company for various terminal facilities at Chicago, and also for the purpose a controlling interest in the Pittsburg and Western Railroad company, were unanimously approved.

The directors will meet on Dec. 16 and re-elect Mr. Mayer president.

New York Stock Market.

NEW YORK, Nov. 16. The features of the dealings on the stock exchange this morning were Delaware and Hudson, Jersey Central, Lackawanna, and Atchison. Of the little trading done most of it was in the stocks named. The total sales to noon were 116,000 shares. The market was weak throughout and under the lead of the coalers, which were heavily pressed for sale, prices recorded sonnesharp declines. The bears especially raided Delaware and Hudson and the price was down 4¾ per cent. from Saturday's closing. The decline in the remainder of the list ranged from ¼ to 2 per cent. The decline in Delaware and Hudson caused the circulation of a new crop of rumors, among which was one of dissensions in the directory. These rumors were promptly denied and characterized as absurd. President Oliphant to-day positively denied to a United Press reporter that Mr. Cannon had been a heavy seller of the stock and added that he had not sold a single share. The transfer books do not show any such general change in ownership as would be inferred from the trading in the stock market. With regard to reports that a reduction of the dividend was contemplated, Mr. Oliphant said that the subject had not been even discussed. The dividends for the entire year are formally declared on the meeting of the directors in January and it is not the policy of the company to make any predictions than matters are officially acted upon. London sold considerable stock during the early dealings. The sales for that account amounted to 15,000 shares. This selling was attributed to the unsettled financial news from the continent.

After 12 o'clock the market was very dull and tiresome. At times during the afternoon there was complete stagnation. A bidding-up process on the part of some brokers resulted in a sharp rally in some stocks. Delaware and Hudson recovered from 118¼, the lowest point to 119⅞, at the close. The remainder of the market recovered to a lesser extent, and prices closed generally ½ and 2¼ per cent. lower. Commercial Cable was exceptionally strong, closing 2 per cent. higher. The Burlington directors to-day advanced the dividend rate to 5 per cent. from 4 per cent. per annum, declaring a quarterly dividend of 1¼ per cent. against 1 per cent. for the preceding quarter. This action had very little effect on the price of the stock. The total sales for the day were 182,351 shares.

Must Not Illustrate.

WASHINGTON, Nov. 16.—Secretary Foster made the following statement about the publication of coin designs:

During the past week there have appeared in the newspapers in different parts of the country, cuts of the new designs for coins recently approved by the department. In some of the papers articles have been published to the effect that to publish the cuts was in violation of existing laws, while in other papers it was claimed there was no law that such a reproduction on paper conflicted with. Therefore, I deem it advisable for the benefit of the general public to state: That while the publishing of such cuts has always been considered, and, in fact, was harmless heretofore, there is now a law on the statute books, which was approved Feb. 1, 1891, that forbids the making or publishing of anything in resemblance of any of the coins of the United States or any foreign government, not even the inscription thereon. Secretary Foster, after quoting the law in question and a letter from Representative Wright, who introduced the measure, adds:

It would appear from this letter, also from the wording of the section, that it was the intention of congress that any person should be privileged to publish representations of any coins named by the law.

A Southern Affair of Honor.

JACKSONVILLE, Fla., Nov. 16.—A duel was to have been fought at noon to-day at Mount Springs, near here, between H. V. Sevier, editor of The Evening Telegram, and Benj. Harrison, editor of The Standard, and a nephew of ex-Mayor Carter Harrison, of Chicago. The Telegram has been publishing a colored society column and Harrison ridiculed it in his paper. The Telegram retorted, reflecting on Harrison as a coward and liar. Harrison challenged Sevier. A warrant was sworn out to-day by Father Kenny for the arrest of the principals and both men were arrested and put under $1,000 bonds each. Harrison still insists he or Sevier must die. Both are men of high character and courage. Sevier is from Alabama and Harrison from Mississippi.

A Futile Bluff.

MONTREAL, Nov. 16.—The general wholesale arrest of publishers, editors and correspondents of newspapers that have published revelations in connection with the Wheelan-Quelzee courthouse job, on charges of seditious libel, is looked upon as a piece of bluff on the part of the Mercier government. It is generally understood that the Mercier government is in desperate straits and some movement had to be made to prevent a serious bolt on the part of the Nationalists. Prominent judges and lawyers laugh at the matter and say that although some of the newspaper writers may be arrested, nothing will come of the matter. Wheelan has taken action for $50,000 damages against the Montreal Herald for an article that appeared on Saturday applying to him abusive epithets.

They Want Cleveland.

BALTIMORE, Nov. 16.—The Baltimore Sun, in an editorial article on Democracy in the northwest, refers as follows to the point that has been made that the Democratic candidate for president should be a man who, if elected, can succeed himself: "Should Cleveland and Boies be nominated and elected in 1892, Boies, with some eastern or southern man, perhaps a Maryland man, in the second place, would naturally lead the Democracy in 1896. The principle of continuity of leadership is a fine thing, but when you have a leader like Mr. Cleveland, who leads and wins votes for his party, this very principle requires that you shall retain him in command till the battle he has planned shall have been fought and won."

Pueblo Whisky, Perhaps.

MILAN, Tenn., Nov. 16. George Galbreath, a farmer living at Point Pleasant, Hickerson county, invited several of his friends to participate in festivities at his house last Saturday night. During the evening a jug of whisky was produced and the company drank freely. In a short time they were taken violently ill. A physician was summoned, but the sufferings of three of the men were ended by death. It is not known how the whisky became poisoned.

A MISCELLANY.

News from the European Capitals.

THE BRAZILIAN SITUATION.

A Wierd Tale of a Buried King—A Chapter of Colorado Crimes—A Bad Freight Wreck—A Cold Wave in the Northeast.

LONDON, Nov. 16. The French farmers are beginning over an excellent harvest of hops. The board of agriculture estimates the crop at 450,000,000 pounds, as compared with 405,000,000 weight in 1890.

A dispatch to The Star from Ottawa, Ont., says that a member of the cabinet states that the Dominion government has decided to run on the subsidy for Atlantic steamers for a half to three-quarters of a million dollars, hoping thereby to secure a fast steamship service. The proposal will be submitted to parliament of necessity. The government will be satisfied with nothing short of a line that will equal the fastest boats running out of New York, even if a million dollars should be needed for the scheme. It is believed that Great Britain will assist on account of the advantage that such vessels would give to England in the speedy transportation of troops across to America. The scheme of the Dominion government in its entirety includes also a fast line from Vancouver to Australia.

Some surprise has been created by the announcement that the Earl of Onslow, governor of New Zealand, is about to retire from that important office and has already notified the government of his resignation. Governor Onslow has made himself very popular during his stay in the colony and the people are said to deeply regret his approaching departure. The reasons of the resignation [illegible] Colorado [illegible] are officially stated.

The popularity of Prince George of Wales, the favorite "Sailor Prince," has been shown emphatically during his illness from which he is recovering. Immense numbers of callers have applied all day for information as to how the prince was getting along and his telegrams have poured in from all parts of England.

MADRID, Nov. 16.—In view of the serious nature of the financial situation the Spanish government has decided to cut down expenses by suspending the plan of increasing the navy and by withdrawing subsidies to railways. The ships in course of construction are to be completed, but apart from this Spain will make no further efforts to rival the great naval powers of Europe. The government has decided on this plan instead of resorting to petty economies.

ROME, Nov. 16.—Italy has ordered the Italian squadron now in the Pacific ocean to proceed to Brazil, and protect Italian interests in that quarter.

VIENNA, Nov. 16.—The statement of Count Kalnoky to the Austrian delegation to-day was less reassuring as to the probabilities of peace than that which the premier had previously made to the Hungarian delegates. He said the situation was relatively satisfactory, but it was impossible to neglect and would be imprudent to overlook the dangers resulting from continued increase of military armaments. Nevertheless there was no acute difficulty and no notice for uneasiness.

DUBLIN, Nov. 16.—The inquest on H. W. Nally, the alleged Irish conspirator, who died in Mount Joy prison a few days ago, while under a sentence of ten years penal servitude, has been held. The coroner's jury arrived at a verdict that Nally's death was caused by harsh and cruel treatment at Millbank prison, which shattered his health.

Brazilian Affairs.

WASHINGTON, Nov. 16.—Senor Mondenes, the Brazilian minister, has received the following cablegram from the minister of foreign relations:

Affirm that complete tranquility exists in all the states except Rio Grande Do Sul where conflicts pertaining to local politics occurred with which in virtue of the constitution the federal government could not interfere. Deny rumors of secession, the idea is condemned by all Brazilians. Affirm that no state thinks of seceding; deny that members of the dissolved congress are in foreign legations as refugees. Nearly all the members of congress returned to their states; those who remain here go about the city at their liberty. A day will be set for the next election, and congress convoked to meet immediately after. General Deodoro will review the troops to-morrow, the anniversary of the proclamation of the republic.

[Signed] CHAMPOURT.

As confirmatory evidence of the truth of the Junta's statement that its doings are purely internal and have no bearing in national affairs, Minister Mondenes says that he has discovered that the Junta is composed of four persons instead of three as at first reported. It was at first supposed that Casal Ribira was the name of one member who it appears that the persons who were referred to are Senor Casial and Senor Ribara: both of these men are prominent Republican leaders in the states so that the Junta stands five Republicans, to one old Liberal. The latter, General Posario, is not believed to cherish any monarchal principles.

An Ancient King.

CHILLICOTHE, O., Nov. 16.—Mr. Warren K. Morehead and Dr. Cresson, who have been prosecuting excavations here for the past three months in the interests of the World's Fair, have just made one of the richest finds of the century in the way of prehistoric remains. These gentlemen have confined their excavations to the Hopewell farm, seven miles from here, upon which are located some twenty-odd Indian mounds. On Saturday they were at work on a mound. At the depth of fourteen feet, near the center of the mound, they exhumed the massive skeleton of a man which was encased in a veritable copper armor. The head was covered by an oval-shaped copper cap. The jaws had copper medings and the arms were dressed in copper. Copper plates covered the chest and stomach. On each side of the head on protruding sticks were wooden antlers ornamented with copper. The mouth was stuffed with genuine pearls of immense size, but much decayed by the ravages of time. Around the neck was a necklace of bears teeth set with pearls. At the side of the male skeleton was also found a female skeleton, the two supposed to be man and wife. It is estimated that the bodies were buried where they were found fully 600 years ago. Messrs. Morehead and Cresson consider this find one of the most important ones that they have made and believe that they have at last found the king of the mound builders.

Colorado Crimes.

DURANGO, Nov. 16.—Maggie Montgomery stabbed John Gross in the heart last night at the Phoenix variety theater in this city. Gross died instantly. He was to have been married to-day and this aroused Maggie's jealousy. Maggie is a hard character and this is her second victim. She is now in jail.

DENVER, Nov. 16.—Another of the alleged Rio Grande express robbers was arrested at Brookside yesterday, in the person of H. N. Wallen, formerly foreman of the railroad section at Texas creek. A number of arrests are to be made within the next few days.

CANON CITY, Nov. 16.—In a row over a game of cards in a saloon at Chandler Creek today, John Cox had killed John Anderson and then shot J. L. Calhoun in the neck, inflicting a wound from which he died this afternoon. Cox then fled to the hills and has not been captured.

A Freight Train Wreck.

PITTSBURG, Pa., Nov. 16.—A rear end collision between two Pan Handle freight trains occurred just west of Burgettstown, about twenty miles west of this city, at 4 o'clock this afternoon. Fourteen cars of perishable freight were derailed and piled up in a heap, the wreckage taking fire and burning up. Brakeman Hart of this city was caught in the wreck and cremated alive. Thomas Wharley, of Allegheny, engineer, and John McFarland, fireman, of Conway, on the second freight received probably fatal internal injuries before being rescued from the burning debris. The loss will reach $100,000. Trains will be run over the Cleveland and Pittsburg railroad between Mingo Junction and Pittsburg until the Pan Handle tracks are cleared.

A Cold Wave.

ST. PAUL, Minn., Nov. 16.—The snow storm in the northwest has been followed by intensely cold weather from Helena to Superior points. Sioux Falls, S. D., reporting 18 below zero, the coldest. The cold wave is rapidly covering Iowa and Wisconsin and will reach Illinois before morning.

Denver Boodlers.

DENVER, Nov. 16.—Messrs. Hadley, Raymond and Bliss, the indicted ex-city officials were in the criminal division of the district court this morning when the argument on their plea of abatement was begun. Hadley's plea, attacking the legality of the appointment of Judges Belford and Seaman as special prosecutors, was decided against him a week ago, and there remained to be determined his plea attacking the legality of the empanelment of the grand jury. The pleas of Messrs. Raymond and Bliss, which were exactly similar to those interposed by Hadley, were also to be determined. They were both overruled. The defendants then asked for a continuance on the ground that suit had been brought against the county treasurer to prevent him paying the special prosecutors their fee. If this case was decided in favor of the plaintiffs they had a right to ask that the indictment be quashed. This was denied them. Here Mr. Berry raised the point that the indictments were defective, inasmuch as they charged Messrs. Hadley, Raymond and Bliss with forgery, whereas they were really guilty of malfeasance in office, if anything. The case is continued could not forge their own names. This also after a lengthy argument upon both sides was overruled.

The Indian Trouble.

WASHINGTON, Nov. 16.—Acting-commissioner-of-Indian-affairs Bell to-day received the following telegram dated November 14, from Captain Penneyall, acting agent at Pine Ridge: "Telegram 8th received. Bear Eagle's party from Cheyenne agency came straight to this agency and reported. In my opinion they mean no mischief. They express discontent with treatment at their agency. I have counselled their return and that they shall make application there for transfer if they have reasonable grounds for such application. I believe they have no wish to make trouble. Discontent with management at their own agency manifested by all visitors from Cheyenne river inclines me to belief that there is some ground for complaint. Matters should be looked into without delay."

Mr. Bell has recommended to the secretary of the interior that the issues for now at the Cheyenne agency be instructed to give the complaints and causes of discontent of Bear Eagle and his followers careful investigation and consideration, and submit a full report on the subject. The secretary approved the recommendation. The acting commissioner has replied to the captain, who is urged to encourage the Indians to return to their reservation so that an investigation may be made.

New York Wants It.

NEW YORK, Nov. 16.—A number of prominent editors, hotel men, railway officials, politicians, etc., met to-day to devise means for securing the Republican convention for New York. Ex-Governor Tounsbury, of Connecticut presided. General Collis was secretary and Col. E. F. Shepard and others spoke. C. M. Depew was among those who favored the project and he on behalf of the New York Central Railroad company, subscribed $2,500 toward a guarantee fund. Several subscriptions were made. It was proposed to pay the general convention expenses but not the expenses of the delegates. A committee was appointed to take further steps in the matter. Among the well-known men in the committee are C. M. Depew, T. C. Platt, E. F. Shepard, C. N. Bliss, S. V. R. Cruger, S. J. Arkell, John Wanamaker, Morgan C. Bulkeley, Gen. S. E. Merwin, Hon. J. R. Hawley, O. H. Platt, W. J. Sewell, J. W. Jacobus, J. W. Vroman and J. J. Belton.

The Italian Ultimatum Discredited.

WASHINGTON, Nov. 16.—Minister Porter did not call at the department of state today. He was granted leave of absence with permission to visit the United States, so his visit to Washington is regarded to have no special significance, as it is customary for ministers on their return from abroad to call and pay their respects to the secretary of state and receive any instructions he may wish to give them.

The department of state has had no correspondence with the Italian government in connection with the New Orleans affair for some time and the rumor that Italy has sent an ultimatum is generally discredited here.

The El Paso Silver Convention.

EL PASO, Tex., Nov. 16.—The southwestern silver convention to assemble in El Paso on Dec. 15 next will remain in session until the evening of the 17th. It will be the largest gathering of silver miners ever convened. Every mining camp in Arizona, New Mexico and Western Texas will be represented. Low railroad rates have been secured for all who who desire to visit El Paso on that occasion from as far east as Chicago, St. Louis and Kansas City, as far west as San Francisco, as far south as New Orleans and as far north as Denver. Special excursion trains will be run by the Santa Fe road through New Mexico during the convention.

A Lake Erie Wreck.

SELKIRK, Ont., Nov. 16.—In last night's gale, the schooner Mount Calm of Toledo, loaded with iron ore, became unmanageable and was driven among the rocks, within a hundred yards of the shore half a mile below Selkirk on Lake Erie, where she now lies a total wreck. One of the crew swam ashore and the others are still on the wreck awaiting the life boat which has gone out for them.

A Steamer Wrecked.

GALVESTON, Tex., Nov. 16.—Intelligence has been received of the loss the American steamer Braixham. The steamer recently left Philadelphia with a cargo of steel rails for Velasco, Tex., to be used by the Velasco Terminal railway in making connection at Cheneago with the railroad system of the state. The vessel went ashore off Western Dry Rocks on the coast of Florida and will be a total loss.

An Involuntary Millionaire.

NEW YORK, Nov. 16.—A son was born to Mr. and Mrs. John Jacob Astor, Jr., at 3 a. m. yesterday. The child will be named John Jacob. Mother and child doing well. This child will be the chief heir of William Astor, who is supposed to have $150,000,000. It is mostly invested in New York real estate.

La Grippe Again.

PARIS, Nov. 16.—Influenza of a virulent type has appeared in Pirageaux and other towns in the department of Dordagne. A large seminary at Pirageaux has been closed in consequence of the prevalence of the disease.

Third Party Gains.

INDIANAPOLIS, Ind., Nov. 16.—Mrs. Elgar Georges, of Bunker Hill, Ind., this morning gave birth to four fully developed girls. The father is a farmer.

Weather Indications.

WASHINGTON, Nov. 16. For Colorado: Fair, warmer and fair Wednesday.

CITY COUNCIL.

Liquor License Temporarily Reduced.

THE WATER RATES ARE FIXED.

A Number of Bills are Allowed and Miscellaneous Matters Discussed—A Light Will be Placed on the Bijou Street Viaduct.

All members were present at roll call last night except Aldermen Eaton.

After the reading of roll call and reading the minutes the following petition was read from the druggists of the city:

To the Hon. Caleb Mayer and Members of the City Council:

We, the undersigned druggists, doing business in the city of Colorado Springs, respectfully represent that we have paid into the city treasury $500 for licenses issued to us respectively for the first half of the current year and that the further sum of $500 will soon be payable by us for the last half of said year. Your petitioners further show that the said license fee is, and has for some time been, burdensome on petitioners, and that under the present depressed condition of business they can ill afford to pay it. Your petitioners, therefore, pray that your honorable body direct the city treasurer, upon payment to him by us of $250 each, to issue a receipt for said sum in full for the last half of the present year, and that the city clerk be instructed upon presentation of such receipts, to issue to the holders thereof a druggist's license for the remainder of the present year. Very respectfully,

G. B. STORER,
F. E. ROBINSON,
WOODS & TORRENCE,
VAN PELTEN BROS.,
MILLER BROS.,
THE COLO. SPGS. DRUG CO.,
A. STOCKBRIDGE.

City attorney McMorris stated he asked in regard to the legality of such action. He stated that the ordinance would have to be complied with, but that the council might remit a portion of the money to the druggist if it so desires.

Alderman Roby thought the matter might be cut in two and remit $250 of the money. He had watched the fights against liquor selling in this place for eighteen years and it had always cost the city more than $250 for each suit.

Alderman Robbins said that he thought cutting down the license was a step in the right direction. He does not believe it right to issue a license. If it is right at all to sell liquor then it should not be taxed any more than lemonade.

Alderman Dunbar thought it was not a question of right and wrong that was to be decided. He believes that high license is the proper way to regulate the liquor traffic, and the question is what is high license and what is extortion?

Alderman Rouse moved to remit $300 for the next six months. The motion prevailed by a vote of six to three, Aldermen Robbins, Finegan and Bartlett voting nay.

The Light Gas and Electric company presented a petition asking that the water rate be reduced. The petition, at length, gave reasons to show that the company is not using water in as large quantities as the council might suppose.

Alderman Roby stated that the water committee is of the opinion that the company is not using water in as large an amount as was supposed. Upon motion the rate for the company is fixed at $120 for the year.

Thomas Gough presented a petition for the privilege of selling an ice house at Prospect lake, which was very quickly tabled.

Alderman Rouse reported that the street light for the Cottla street underpassing has been ordered. He also said that the El Paso Electric Light company would put the light on the pole at Bijou street free of cost, as it is afraid that in case of an accident there it might be held responsible. The committee would recommend that a light be placed on the Bijou street viaduct. This suggestion was adopted.

Alderman Roby, of the water committee, reported that work is progressing upon the Buxton creek pipe line; also reported a list of rates for the use of water as agreed upon by the committee. The report was adopted as an ordinance later.

The following bills were read and allowed:

W. C. Stark	$3 50
E. P. Jenkins	7 15
Thos. Everett	7 00
Newton Lumber Co	3 15
Clarke & son	90 00
Engineer corps	2 00
R. J. Belcher	46 43
Bergodis & McConnell	1 00
Frost's men	41 00

A bill was presented by Ira J. H. Sykes for trees planted two years ago. This was referred to a special committee composed of Aldermen Leach, Hosick and Dunbar.

A plat of the Roby addition was presented. It is composed of twenty-one lots and is north of the Deaf-blind institute. The street committee thought the plat all right and it was accepted.

The plat of the Walker addition near the Mesa road was rejected as it cannot be made to conform to the plat of the city.

A petition was presented by a number of real estate agents who have paid their license, asking for a rebate, as an ordinance has been adopted cutting out the license. Referred to the ordinance committee.

The rules were suspended and the ordinance to fix the water rates was taken up. As adopted the rates were fixed as follows: Ten horse power engines, per annum, $[illegible] per horse power; 25-horse power, $1.75; 50 to 25 horse power, $1.50; 100 to 50 horse power, $1.25; 150 to 100 horse power, $1.15; 150 and over, $1; gas houses, $150 a year; sprinkling carts, $15; motors, $2 per month; livery stables, same rates as heretofore; $10 for bath tubs in barber shops; $3 for the first chair in barber shops and $2 for other chairs, $5 for bath tubs in boarding houses. It was also agreed that ten boarders shall constitute a boarding house. A long discussion was engaged in as to whether street sprinklers should be taxed, as it seemed to some of the councilmen like taking money from one department to put it into another. The motion finally prevailed, however.

Mayor Sprague said that he had information that President Jeffreys of the Rio Grande would be able to see him this week to discuss viaduct matters and he proposed to go to Denver on Wednesday and would like as many of the committee to go as possible. Alderman Finegan hoped the engineer's eyes are well by this time, and wanted to know how many years it would be before the viaduct would be built.

The council then adjourned.

District Court.

Judge Rucker of the Ninth judicial district presided in the district court yesterday to hear cases in which Judge Campbell had been interested as attorney. He will probably finish the docket on Friday of this week. The following business was transacted:

1349. D. W. Collet et al. vs. O. S. Loomis et al. Passed.

1359. The Cascade Ice Co. vs. The Austin Bluff Land Co. Continued for the term.

1434. Frank Smith vs. The Austin Bluff Land Co. Continued for the term.

1438. J. W. Kellogg vs. Frank Smith. Continued for the term.

1525. The Exchange National Bank vs. Leo Jackson, sheriff. By consent, continued for the term.

1013. Timothy L. Johnson vs. The Broadmoor Land and Investment Co. Defendant to answer within thirty days. Referee ordered to file report in three days.

The following members of the petit jury summoned for the special term were in attendance.

I. N. Clements, Matt Conway, A. B. Love, J. Fiegl, William Gould, C. E. Durkee, J. H. Vorhes, George Sleeman, Louis Franklin, C. M. Sherman, A. S. Blake, S. F. Lambert, Alexander Thompson, W. H. Parry, C. H. Frowine. Messrs. Frowine, Thompson and Durkee were excused.

Court adjourned until to-morrow morning at 10 o'clock.

A Dramatic Recital.

The cold night operated to reduce the audience which greeted M. Leon Florestan in The Antlers pavilion last night to its lowest terms and so prevented many lovers of the dramatic art from a really fine exhibition. Mr. Florestan began his programme with an essay upon the "Art of Acting," written and delivered in French, and therefore chiefly interesting to those who were sufficiently acquainted with that language to follow his slow and careful enunciation. His first recitation was taken from the fifth act of "Phedre," and although the words were French the gestures and play of the features were intelligible to all of the audience.

An artistic rendering of Hamlet's soliloquy came next and last came several selections from the Merchant of Venice in the character of Shylock. This was an excellent piece of acting, especially in the court room scene, where the representation of the old Jew was much more intense than that usually given to it by American actors.

Rival Partyites in Council.

INDIANAPOLIS, Ind., Nov. 16. Everything connected with agitation in favor of the farmer is represented here waiting the session of the supreme council of the Farmers' Alliance that begins at Tomlinson hall tomorrow. At the same the national meeting of the F. M. B. A. will be held in the court house, but taking together the representatives of both organizations now in the city including the 100 delegates to the council there are 800 men. Both sides are busy arranging for to-morrow's meetings, while there were also several meetings of other organizations working in line with the alliance and F. M. B. A. Two of these were political, the third party representatives and the executive committee of the Confederation of Organizations. The latter proposed to bring together all labor and industrial organizations on a common platform, the project being to get in line for the third party, the Knights of Labor, the American Federation of Labor and the Farmers' Alliance. Its executive committee met to consider the selection of a place for a conference of all bodies interested on Feb. 22, but a quorum was not present and adjournment was ordered until Thursday. The People's party representatives have been in session all day, but without any definite action. The State agents of the National Business association met to consider plans for improving their business system, eighteen states being represented, all of the west and south.

The American Association.

ST. LOUIS, Nov. 16.—President Phelps of the American association was in the city yesterday, but declined to be interviewed. From a reliable source it is learned today that the Association will consist of twelve clubs next year. Where the other three are to be located has not been definitely settled upon, but Brooklyn, Pittsburg and Kansas City are said to be the objective points.

In an interview to-day Von Der Ahe said: "I understand from Mr. Phelps that a League committee consisting probably of Soden of Boston and Talcott of New York will come to me in St. Louis some time this week and make proposals for a peace agreement. We have decided to come to peaceful terms with the League in two ways: First, all contracts of both the League and the Association must be respected. Second, the League and Association interchange world's championship and exhibition games. It is impossible to make any other kind of an agreement.

Valiant Mexicans Thrash.

RIO GRANDE CITY, Tex., Nov. 16.—News received here to-day says that Nov. 2 Carina Garzia and about 100 men met several hundred Mexican soldiers twelve miles from Mier on the road to Guerrero. A volley was fired at Garzia's force with no damage, at close range, which was returned by the revolutionists, causing the death of three soldiers and badly wounding another. The government forces fell back in disorder.

Garzia has not been out of Mexico since he entered it the 15th of September, from reliable accounts, but he has been working up a revolutionary feeling in the states of Tamaulipas and Nevra Leon.

TELEGRAPH BREVITIES.

George Beard, cashier of Cheyenne National bank, which suspended last week, shot and killed himself instantly.

The treasury department purchased 408,000 ounces of silver at .945 to .947 cents per ounce. The offers were 930,000 ounces.

A special from Beatrice, Neb., says: By the explosion of a gasoline stove Mr. and Mrs. J. H. Baldwin were seriously burned, the latter fatally.

There is trouble brewing among the freight conductors and brakemen of the Kansas City, Fort Scott and Memphis railroad which threatens to develop into a strike.

William J. Florence, the actor, who was attacked by pneumonia at Philadelphia on Saturday night, and whose condition was serious yesterday, is much improved and his physicians believe him to be out of danger.

A special from Logan, Ia., says: Postmaster Wilkins has disappeared and it has been ascertained that he lost considerable money on Chicago wheat. A postoffice inspector is examining his accounts. It is thought that they are badly tangled.

At a meeting of the executive committee of the United Press held in Chicago Saturday, the resignation of its treasurer, C. R. Baldwin, was accepted and John R. Walsh, president of the Chicago National bank, was elected treasurer in his stead.

The New York agency of the Nevada bank of San Francisco will close on Dec. 1. The announcement caused surprise in Wall street. Manager Photo said to a United Press reporter this afternoon that he did not know why the New York office was to close out business. He had received orders from San Francisco several weeks ago, and had notified customers that all settlements of accounts would be made before Dec. 1.

JOB WORK

Facilities for Plain and Fancy Job Printing equal to those of any establishment west of the Mississippi River

All persons having advertising with the paper and all business connected with the office will make it a point to see that their business will be properly attended to. We are prepared to assume responsibility for a practical system of handling in the best manner. No claims are allowed against the Gazette for errors in advertisements. All advertisements for the Weekly must be handed in not later than Thursday. Advertising agents are respectfully notified that we do not want any business from them.

H. A. HOFFS
Manager of the Gazette

Duels are bad things, but the two newspaper men who were going to fight in Florida over a little matter of ridicule should have been let alone, for then one or both of them might have been killed.

There is no danger of any Sioux uprising this fall. The proper investigation into the present disturbed which has been ordered will probably quiet the Indians and has had the effect of their means in open rebellion.

The story of the finding of the book of the mound builders in an Ohio mound makes very bitter reading, but the truth full force is a feature which would lead one to believe that Joe Mulhattan has either compromised his recent difficulty with the law or else is out on bail.

A man named Ciegler was struck by a train moving sixty miles an hour at Plainfield N. J. a few days ago and was thrown so far that the trainman looked in vain for the body after the train had stopped and backed up but Ciegler wasn't killed and will live. The "labor vote" can take heart.

The Denver cartoonists will be in hard lines if the new law forbidding "the making or publishing of anything in resemblance of any of the coins of the United States or any foreign government" is enforced. A Free Silver cartoon without the familiar features of the Philadelphia school teacher would fall as flat as the man who broke the long distance falling record in Chicago.

A San Francisco correspondent of the New York Tribune describes the Salton lake in the Colorado desert, whose appearance last spring created so much interest, as rapidly receding and says that it is now only one foot seven inches deep in the deepest place. While the evaporation of this great area of water has caused an increase in the humidity at Salton, on the beach itself, a few miles away the summer has been as dry and hot as ever and the prophesied climatic change has been a failure.

The eclipse of the moon Sunday night seems to have been a perfect success, although it was understood that some of the citizens of Pittsburg classed the occurrence in with the publication of Sunday papers and wanted it stopped. From Maine to California the clouds seem to have rolled aside to allow an unobstructed view of the phenomenon. Of course the clear air of Colorado gave the people here an advantage that was duly appreciated by most of those who watched the chocolate colored shadow wax and wane.

It is a great comfort sometimes to live in "the arid region." Take the matter of water supply, for instance. In the city of New York the streets are no longer sprinkled the drinking fountains are shut off and there is even danger that the breweries will have to discontinue making beer. The reason for this is that all the great city reservoirs are empty, the supplying streams are running low and it refuses to rain. There is no water in the fire hydrants and people are being urged to cut down the use of the precious fluid 10 to 20 per cent. if possible. The mountain streams may be not now as fluent as the Grand river, but they can always be depended upon.

In the telegraphic matter of Sunday morning appeared an interesting account of the testing of some new armor plate manufactured in this country and "harveyized." This process, which takes its name from the inventor, a Mr Harvey, is a simple one and consists merely in spraying the white hot plate, when shaped, with cold water on both sides. The value of this treatment was positively shown in Saturday's tests. Being held perpendicularly between the two sprays, the discharged water from the upper portion of the spray running down as the heated plate, was itself heated, and thus to a certain extent protected the plate from the chilling action of the lower portion of the spray. The upper part of the plate was distinctly softer than the lower as shown in the tests and in fact was the very perfection in proper condition for rolling, the best results of the Harvey process. The uniform chilling of a plate at all points of surface will accordingly be the aim of both the armor making establishments hereafter. The plates as tried were pronounced better than any foreign produced in Europe, and with these slight defects in manufacture remedied our navy will be equipped with fighting modern naval ordnance.

A Tribute to B. W. Steele.

PHILADELPHIA, Nov. 11, 1891.

To the Editor of THE GAZETTE:

DEAR SIR—I have just read with sadness the account in your paper of the funeral service over the body of your late editor and my dear friend, Benjamin W. Steele. I feel called to add to what was said on the occasion by those who could thus pay tribute to a good man. Let me add this corroborative word.

In the early eighties I spent a delightful summer holiday in Colorado, and my happy fortune then led me to know Mr. Steele. I had had no personal knowledge of the man before, but in a town inhabited largely by young men at that time and by men from the east, he was the man to whom one went for advice and help. I found at once that he possessed one of the finest, sweetest, gentlest spirits that a man ever was born with. In all courtesies of life, in forgetfulness of self—an cheerful acceptance of duty—he was as true a gentleman as I have ever known. For one who was from kitchen and old friends it seemed that all good men were his brothers, all good women his sisters, and of all little children he was the elder father. Just he was very strong and tender. The tenant soul of that frail and scarred body facing imminent death with calm courage for so many years was

[illegible]

depend to free anything. I do not believe that any persuasion from any source could have induced Steele to do what he believed a deliberate wrong. There is only one thing I may speak of in his behalf, the inherent sense of unfulness of his nature, which I feel sure he lived. I hope it has grown.

For the children out there to say,
All that at least is in world for us,
In such great pieces as suit
The full grown strength of Heaven.

J. [illegible] Parsons

LITERARY NOTES.

[illegible]

The Gartell [illegible] has just been published by Harper Brothers in a special work [illegible] twenty full pages. The engraving [illegible] and from the [illegible] every page [illegible] tumbly with the [illegible]

Harper & Bros. list of new books just published includes Egypt Pharoahs Fellahs, and Egypt revisited of essays and monographs by [illegible] Child entitled Art [illegible] Circus written and illustrated by H. W. McVickar [illegible] productions of [illegible] and water color drawing representing New York Bay [illegible] now volume by W. Hamilton Gibson [illegible] Sharp Eyes. Charles Robert [illegible] dickens novel. In the Strength of Hopes Country and The Modern Mistletoe an extravaganza written and illustrated by Howard Pyle.

Worthington & Co. 747 Broadway New York, announce for immediate publication on Nov. 20 in their international library, Thisbe of Lore, By Clara Doyle Midgley. This unique title indicates a book of striking and unusual interest. The scenes are laid in Charleston, S. C. in the antebellum days when its society was "sui generis" refined cultured hospitable, and, under a slight disguise the wits and belles of a now almost forgotten period, move before us in a glamor of grace and beauty and chivalric splendor. The story is full of splendid local color and abounds in dramatic situations. As a study of character it rivals the best introspective productions of the modern subjective school while the lofty ethical tone will make the book acceptable to those whose consciences disapprove the ordinary romantic novel.

A Maniac in the Car.

There were six of us in the railway carriage, and between Paris and Rouen the train ran at tremendous speed to make up lost time. The talk among old travelers fell naturally upon railway speed and then of course it turned to railway accidents due to high speed. One after the other we gave what we deemed strange tales of danger by rail. The last man to furnish a contribution was a wizzened old fellow, whose twinkling eyes twinkled all the more as horrors were piled upon horrors. He mused for a moment and then said:

"I know of one adventure by rail that may interest you gentlemen, although I was not personally concerned in it. It happened to an uncle of mine, an invalid who was returning from Nice to Paris a few years ago. If you remember, the custom was then to change cars at Lyons. The train came to a stop in the Lyons station and the passengers, after climbing up some twenty steps, found another train ready for Paris.

ON THE VIADUCT

"The train by which my uncle traveled was the day express noted for speed and always in the hands of the best men on the line. As in the case with us at this moment, there had been some time lost through a hot box, and as the train reached the neighborhood of Lyons it was really whizzing along the tracks. If you know the country at all you may recall that at the little town of Vienne the line crosses a viaduct over one of the small rivers that empties it to the Rhone at that point. For years it has been and still may be, the custom to slow up when going over this viaduct.

On that particular morning the day express was sent across the viaduct at a speed which brought most of the old travelers to their feet. Such a thing had never been heard of. My uncle, among others, opened the window of his carriage (the doors were locked) and looked ahead. His carriage was near the front of the train.

"As he raised the window, above the [illegible] train roared at nearly sixty miles an hour, he heard a shriek of terror come apparently from the locomotive then another and a third. He soon discovered that many of the passengers in the cars ahead of him were watching the locomotive with blanched faces. What was going on? The fellow travelers in my uncle's compartment asked the question, but were too frightened to suggest any reply.

AN AWFUL SHOCK

"As another piercing and awful shriek rose the terror of the train on cattle [illegible] went into hysterics and [illegible] fainted. My uncle asked some one to [illegible] his body while he stretched out and leaned to some people in the car ahead. As he did so he saw only too plainly the truth. The engineer had gone crazy and was standing over his assistant with a red hot poker. My uncle caught one glance of the maniac's face as he looked out from his cabin in the locomotive and shook his fist in the faces of the terrified passengers.

The screams that heard were from the passengers [illegible] at sight of the locomotive were followed with [illegible] strange and terrible [illegible] upon the hills and crest.

The stoker knew the danger and so did many of the passengers. My uncle knew perfectly well that the track upon which we were running virtually ended in the river at Lyons. There was a short stone parapet which a train going at sixty miles an hour would make no thing of and then—the Rhone. There was scarcely time for thought and yet this thought did present itself—that the end was coming and [illegible] the outskirts of Lyons were [illegible]

[illegible] half the train was [illegible] than ever. Ever since that day my uncle refuses to travel on fast trains the speed makes him nervous. In ten minutes Lyons would be reached.

THE END OF THE EPISODE

"A shout passed along [illegible] had a gun or [illegible] in the [illegible]

[illegible]

seventy miles an [illegible] the Lyons station [illegible] though the train [illegible] could see the [illegible] of terror upon the faces [illegible] line. In one minute [illegible] just time to prepare for every [illegible] your pardon gentlemen [illegible] and I was almost carried by [illegible]

An I off he jumped. We were [illegible] eated in his story to realize [illegible] that we had just [illegible] point. We were [illegible] how the old fellow, uncle and those terrible passengers escaped death.

[illegible] the railroad company as to the report of any great accident on the Lyons [illegible] ten years ago. He never heard of any [illegible] of the kind. Perhaps it was [illegible] thing, that the old Santa Claus [illegible] twinkle in his eye.—Philip G. Hubert, Jr. in New York Epoch.

A BOLD STROKE FAILS.

THE CONFEDERATE BLUNDER AT SPRING HILL, TENN., IN 1864

What General Hood Tried to Do and Almost Accomplished While Sherman Marched Away to the Sea—Schofield's Union Army Saved by a Miracle.

[illegible]

[illegible] Nashville and the north except [illegible] men at Spring Hill and a [illegible] organized recruits and convalescents [illegible] with 25,000.

The [illegible] west lay with Schofield [illegible] essentially surrounded and cut off. Hood's hope—the forlorn chance of the south—lay in placing a wall of bayonets across the pike and shutting Schofield off at Spring Hill, when the Union army in the west would be at his mercy. This was a reasonable expected good fortune for Hood. It was only Sherman's abandonment of the pursuit. And Sherman's [illegible] that Hood would hold him south of the [illegible]. There was a hole in the [illegible] saloon. It was [illegible] that Lincoln's fears [illegible] was unfounded justified [illegible] Vicksburg [illegible] Cleburne to [illegible] eyes upon the [illegible] and their [illegible] Calhoun [illegible] Nashville to Chattanooga [illegible] Do this [illegible]

[illegible] away to [illegible] Schofield [illegible] Hood's men [illegible] Cleburne [illegible] Cheatham [illegible] were killed there in assaulting Schofield's works and three of Stewart's generals fell also. But it was too late. Schofield [illegible] and every step [illegible] and his chances. From Franklin retreated to Nashville and Hood's bold game was up. At Nashville two weeks after [illegible] with Schofield, Wilson and [illegible] Thomas [illegible] Missouri destroyed Hood's [illegible] Sherman's [illegible] the west, was [illegible]. But it was a narrow escape.

[illegible] reasonable explanation of Hood's [illegible] the night of Nov. 29th [illegible] Hood's [illegible] generally during the [illegible] course [illegible] fighting that stirred [illegible]

[illegible] Spring Hill [illegible] Stewart [illegible] Hood's [illegible] Cleburne [illegible] Hood's [illegible] Confederate [illegible] grave Union disaster.

Stage Connections from Telluride to Rico.

As fast as road is completed train service will be extended with stage connections from terminus to Rico.

OTTO MEARS,
General Manager.

THERE SEEMS A QUARTER OF A CENTURY AGO there lived in Baker County, Oregon, near what is now Baker City, a man who has since become known and identified with the resources and development of that country. This man is no other than Mr. John Stewart, one of the wealthiest and most influential citizens in the county. In a recent letter he says: "I had been suffering from pains in my back and general kidney complaint for some time and had used many remedies without any or temporary relief. The pains in my back had become so severe that I was prevented from attending to my business. Being through a friend of the wonderful cures effected by Oregon Kidney Tea, I was induced to try it, and from that very first dose I found instant relief and before using half the contents of the box the pains in my back entirely disappeared. I cheerfully add my testimony to the virtues of the Oregon Kidney Tea and recommend it to all sufferers." Oregon Kidney Tea cures backache, gravel, red brick dust sediment, lumbago, sleeplessness, nervousness, and all affections of the kidneys or urinary organs. Feathers are lighter than the lungs of those who use Oregon Kidney Tea. Sold by all druggists, or sent by mail on receipt of price, $1 per box, 6 boxes for $5. Address OREGON KIDNEY TEA CO., Portland, Oregon. For sale by Van Petten Bros., Colorado Springs.

THE GAZETTE.

TUESDAY, NOVEMBER 17, 1891.

Mrs. B. A. P. Eaton, wife of the alderman from the Third ward, is reported quite ill.

Colorado college receives $500 by the will of the late Mrs. Julia F. Walker of Norwich, Conn.

Mr. W. H. Tuttle, for some time past a conductor on the Midland road, has been appointed a traveling agent for the company.

Grand encampment No. 21 will meet this evening in I. O. O. F. hall at 7:30 o'clock, to which an unusually large attendance is requested.

Thomas S. Wilson and John Grosvenor, both subjects of Queen Victoria, announced their intention in the district court yesterday of becoming citizens of the United States.

The eclipse of the moon Sunday night was watched with interest by the citizens of this vicinity. The moon entered the shadow about 5:30 o'clock and cleared it about 9 o'clock.

Mr. Arthur Baker and Mr. J. Shoggotts returned to the city on Saturday after a three months absence. The first named has been abroad and the last has been at his father's home in Boston.

The supper and dance given by the Pythian Sisters in the K. of P. hall last evening was a great success in every way. A large crowd was present and after supper enjoyed the dancing for two hours.

Regular meeting of Pike's Peak Camp No. 5, W. of W., this evening at 7:30 sharp. There will be work in the first degree. All members are requested to be present promptly on time. Visitors invited.

The annual meeting of the Woman's auxiliary to the board of missions will be held in the vestry of Grace church this afternoon at 4 o'clock. Annual subscriptions are requested to be sent to Mrs. B. St. George Tucker, treasurer, or to Mrs. Garstin, president, No. 21 Kiowa street.

A shooting affair that did not get into the courts is reported at Colorado City Friday night. A fellow who formerly worked here got into an altercation with the keeper of a variety show and they went out of doors to have it out. When he got the proprietor out of doors he shot at him twice and then fled. Neither of the shots took effect.

Mount Rosa lodge No. 4, I. O. O. F. Daughters of Rebekah, will give a musical and literary entertainment in the Odd Fellows hall next Friday evening to which the public is cordially invited. After the programme an oyster supper will be served by the ladies. A very pleasant and enjoyable time may be expected by all who attend.

The Ladies' Aid Society of the First English Lutheran church, will hold a bazaar in the room on South Tejon street, formerly occupied by Rafeld's clothing establishment, on Thanksgiving Day and the day following. They will serve an excellent dinner on Thanksgiving Day and also supper. Meals will be served both days of the fair.

The fire department was called out about 2:30 Sunday afternoon by a blaze at the residence of Mr. A. A. Walling, 426 South Tejon street. The blaze was caused by the igniting of the fluid in a gasoline stove, and the interior of the room was somewhat damaged. The three down-town companies had streams ready about the same time.

For several weeks past F. F. Horn's pet rattlesnake has been very quiet and motionless and grave fears were entertained lest the cold weather was proving too much for him. Yesterday morning he was found to be unusually active and his skin to be split down the back showing a new coat underneath. During the day he managed to crawl out of the old slough and now displays all his old time spirit and bouyancy.

Mr. David McShane and Engineer Delos Durfee, who in company with Mr. S. Thompson of Florissant, have been acting as a board of viewers for the proposed county road to Cripple Creek from Florissant, returned to the city yesterday. They found the road nearly all built by private subscription and that it will take about $1,000 to finish it. They secured such right of way as had not already been secured for the county and will recommend to the county commissioners that the work be done. They report that many teams are met on the way, as a great deal of ore is being shipped.

The fire department boys are getting plenty of exercise these days. They were compelled to take a short run last night about 7 o'clock to the Fourteenth [illegible] to a chimney fire. Their services were not needed fortunately although the Jacksons wet some hose. The house is occupied at present by the El Paso club and smoke was seen coming up through the floor in the second story. An axe soon made a hole large enough to discover where the trouble lay. A joist in the floor extends along the large chimney, the walls of which seem to be very thin and the heat had charred and blackened the wood. It had not begun to blaze but the house was filled with smoke.

Y. M. C. A. NOTES.

The class in bookkeeping was well attended last evening. All who have been in the class are requested to be on hand promptly at 7:30.

And still the interest grows in the approaching convention at Pueblo. Fifteen have stated their intention to go, twenty or more from the college association. The more the better.

A pleasanter spot would be hard to find than the association rooms last evening, with its bright cheery fire place and warm fire, and it was greatly appreciated by quite a number of young men. Come in, young men, and try it for yourselves.

Mrs. Whitney's Pupils' Recital.

The recital given last evening by Mrs. Whitney's pupils at the First Congregational church was one of the most successful and enjoyable musicales ever heard in the city. The ladies' chorus was a very novel feature and was heartily applauded. The voices showed sympathetic feeling and good training. Mr Storer's fine rendition of Schumann's Grenadiers received a well deserved encore. He has a high baritone voice of great promise, if conscientiously developed. Mrs. Cinq Mars has a high soprano voice which was greatly enjoyed. She was particularly fortunate in the climax notes. Mr. Knapp's tenor solo was very effective. Miss Crissey is a great favorite and was warmly encored, responding with Griegs' "Good Morning," which was also greatly appreciated.

Mr Storer's rich bass voice was heard for the first time in two well selected numbers. His lower tones are wonderfully resonant and powerful. Mr. Bracewell was prevented from being present by illness, and Mr. Storer graciously filled his place.

Miss Carrington is too well known as a successful soprano to need extensive notice, but in her solos last night she excelled herself. Her voice is of unusual flexibility and range, and shows fine training. The evening closed with Dudley Buck's arrangement of "Annie Laurie," by the Ladies' quartet, which, though of recent organization, gives great promise of good work and is very much enjoyed.

The house was crowded and the work drew unusually appreciative [illegible]

Order of the Eastern Star.

Rosamond Chapter No. 11, Order of the Eastern Star, was instituted and the officers installed Saturday last by the worthy grand patron, H. A. Baker of Denver, assisted by members of Queen City chapter from Denver and Green Eyrie chapter of Colorado City. The secret work of the order was exemplified in the evening, after which all adjourned to the banquet hall and partook of an elegant supper served by Mr. Sellers of the Alamo.

The order of the Eastern Star is an auxiliary of the Masonic order and Master Masons and their wives, widows, mothers and daughters are eligible to membership. Ramona chapter is starting out very successfully with twenty-eight charter members and the following officers:

Mrs. E. L. C. Dwinnell, W. matron.
Mr. C. F. Stubbs, W. patron.
Mrs. A. T. Lawton, associate matron.
Mrs. F. S. Cohen, secretary.
Mrs. W. S. Nichols, treasurer.
Mrs. E. J. Eaton, conductress.
Mrs. E. J. Smith, associate conductress.
Mr. James P. Barnes, chaplain.
Mr. E. J. Smith, marshal.
Mrs. R. R. Taylor, organist.
Mrs. K. S. Robertson, Adah.
Mrs. J. P. Barnes, Ruth.
Mrs. J. M. Ellison, Esther.
Mrs. C. E. Stubbs, Martha.
Mrs. C. V. Mulholland, Electa.
Mrs. F. W. Howbert, warder.
Mr. C. H. Dillon, sentinel.

Meetings are held in Masonic hall on the second and fourth Mondays of each month.

Affairs at Cripple Creek.

Prospectors in the Cripple Creek mining district are becoming less numerous with the approach of cold weather, but house builders and home-makers have taken their places. Building continues to occupy most of the attention of our people, and commodious store buildings and comfortable cabins have sprung up like mushrooms both in Cripple Creek proper and in Squaw Gulch. McGee's addition to the west side of town is building up rapidly and with substantial structures.

Favorable reports are made of the test now being made at the stamp mill, and there is implicit confidence in the future of the camp. If the mill were a larger one and did custom work, a more general idea could be obtained of what the mines throughout the camp will yield. But thus far nearly every assay and mill run from prospects of any considerable depth have yielded a satisfactory return. Mr. F. F. Frisbee has just returned from a trip to Pueblo, where he had shipments made for a test from quite a number of his prospects, and the result was all that he could hope for. By the way, Mr. Frisbee, who was formerly of the Colorado Springs firm of De La Vergne & Co., came here among the first, if not the very first, who began with pick and shovel and pan to bring the precious metal to light, and he is entitled to the success he has obtained, and to all his prospect holes. Mr. Frisbee as a member of the town company is doing all in his power to build up the place as it should be built and to promote the welfare of all.

And this leads me to note that Surveyor Durfee is here this week engaged in completing the survey of a pipe line from the head of Beaver creek, about five miles northeast of town. It is understood that the town company is at the head of this enterprise, which will no doubt be the means of furnishing Cripple Creek with plenty of water.

The action of the county commissioners regarding the roads leading into the mining district meets with the hearty approval of our citizens, and a petition for aid in completing the road from Raysha Divide to this place has been receiving signatures here this week preparatory to being presented at the meeting of the county board. This route from Divide, which by the way is open for more than half the distance, is regarded as the very best route from northern and eastern points to this place, and but little work and expense will be necessary to fit it for travel.

A delegation has been chosen to represent Cripple Creek in the coming Mining congress at Denver, and it is proposed to make a creditable exhibit of ore from the various mines here.

THE GAZETTE which now reaches us on the day of publication, is highly appreciated by its readers here. It is hoped, as it is confidently believed, that its well known policy of support of good government, good morals and principles of justice, which actuated its lamented editor, will continue to be the policy of the paper under its future management. We are all glad of the success of THE GAZETTE. A. F. T.

Morgan & Headley Leading Photographers.

ASHBY, the oldest established Jeweler in the county, wishes to remind his old friends that he is better fixed for the Holiday trade than ever before. My special lines that cannot be beat in the city, are FINE clocks, watches, chains and rings. My price on Alarm clocks as low as the lowest. Compare anything. I don't intend any new concern or any combination of changers to take old customers away from me on price or quality.

CHEAPER THAN MEAT
And Better.

The Alta Vista!

FAMILY HOTEL. EDW'D W. KENT, Prop.
We expect our guests to be people who want greater privacy and independence, greater comforts and conveniences, than even good boarding houses can supply, without the annoyances and disturbing bustle of a large transient or commercial hotel.
We would be pleased to have everyone who is looking for comfortable accommodations call and inspect our rooms and learn of the advantage which the House has to offer.

McMahon & Moffatt.
Tailors of the very first water. Prices that are a marvel of cheapness when the quality of the goods is considered.

Books for your library, for the baby and the children. The Alta Edition with works of Jules Vergne, Francis Hardman, Thomas Hughes, etc., at 48 cents each is a special value.
Patent Medicines Always at Cut Prices.

TWO NEW ADDITIONS.
We are just opening up a new addition on Pitkin street, Platte avenue, Chestnut street and the new Manitou Boulevard. Every lot in the addition is a beauty and to start things off we offer any lot in the addition on monthly payments of $5 with a first payment of $25. Sales have already begun, the lots are going like hot cakes, and if you want to get in on the ground floor you must not delay.
We have opened sales in the new Fort Worth addition. The lots are 25 by 190 feet, and to start things off rapidly we will sell a few lots taking $10 as first payment, and $2 per month thereafter. No such terms have ever before been offered in Colorado Springs.
